## Experience

---

### City of Ann Arbor Office of Sustainability and Innovations

#### Energy Analyst

June 2023 – Present

- Coordinating multiple projects investigating the feasibility of thermal energy networks.
- Designing and launching a program to improve energy efficiency in rental housing.
- Managing the community's solar bulk-buy program.

#### Energy Coordinator

June 2022 – May 2023

- Designed and managed residential energy efficiency and electrification programs, initiatives, funding support, and outreach tools focusing on frontline populations.
- Engaged community members and collaborators in the sustainability, resilience, and energy planning and implementation processes to equitably co-develop plans and programs.

### Indiana Division of Fish & Wildlife

#### Outreach Specialist

June 2021 – June 2022

- Managed communication projects to conduct significant community involvement with Indiana residents around natural resources.
- Managed the strategic vision and day-to-day communication presence of the Division across the website, social media, newsletters, and news media.

### Environmental Resilience Institute

#### Resilience Toolkit Coordinator

May 2019 – June 2021

- Created written case studies and adaptation strategies that provide climate, resilience, and sustainability information for Midwestern local governments.
- Conducted research on best practices, emerging trends, and potential opportunities for local governments to increase their climate resilience.
- Oversaw the Environmental Resilience Institute Toolkit online database that provides climate resilience solutions for Midwestern local governments.

#### Web Developer

March 2019 – June 2021

- Produced news stories, fact sheets, and other outreach materials for climate change resilience programs that won the Indiana Governor's Award for Environmental Excellence.
- Managed communication efforts by maintaining an informative website and social media channels.
