Dear Commissioner Tovar,

Choose DuPage supports the Coalition application from the City of Chicago and County of Cook for up to \$199 million for the Climate Pollution Reduction Grant. Our organization focuses on economic development initiatives and opportunities for DuPage County. As the lead agency responsible for business attraction and retention in DuPage county, Choose DuPage works to promote the region as a premier global business destination. We support this application because Choose DuPage also recognizes the important role environmental sustainability plays in fostering an attractive business environment.

The Chicago/Cook County CRPG Coalition Proposal advances highly effective Greenhouse Gas reduction strategies that also have strong Environmental Justice benefits. Measures include an Industrial Decarbonization component (for Chicago, Suburban Cook County, and DuPage County) to assist smaller and medium sized businesses, to install energy efficient and electrified equipment, renewable energy, and refrigerant replacement systems, while reducing toxics and air pollution in Environmental Justice areas. The program will also address food waste in Chicago and Cook County through creation of food scrap collection programs and the infrastructure to support them. And it will pursue aggressive energy efficiency, electrification and renewable energy strategies in public buildings such as schools, libraries and public housing in low income and distressed communities to reduce air pollution, provide jobs, and create educational working models for aggressively addressing climate change.

The proposal shared by the project team to drastically reduce our GHG emissions and catalyze economic opportunities within the clean energy economy is critical for the Chicago region and we look forward to working closely to support this effort. Please do not hesitate to contact me for further assistance or information.

Sincerely,

Greg Bedalov
