Marci Henson, Director
Clark County Department of Environment and Sustainability
4701 W. Russell Road, Suite 200
Las Vegas, Nevada 89118

Dear Director Henson,

I am delighted to provide a letter of support for Clark County's application for the US EPA's Climate Pollution Reduction Grants (CPRG) Program's Implementation Grants General Competition. Clark County's effort to procure funding to consolidate home and building improvement resources for residents and businesses through the All-In Building Improvement Hub represents a substantial opportunity to yield transformational change in Southern Nevada.

The historic funding provided through the Inflation Reduction Act represents a groundbreaking legislative initiative, particularly for states like Nevada that urgently need substantial funding for climate action that also addresses chronic stressors like housing affordability, underemployment, and rising energy costs. The CPRG program presents a unique opportunity to empower communities throughout Nevada to make substantial strides toward a more sustainable and climate-resilient future, positioning Nevada as a leader in proactive climate action.

To conclude, I fully support the efforts of Clark County as they seek external funding to support the development and delivery of the All-In Building Improvement Hub. Please don't hesitate to reach out if I can provide additional information in support of Clark County's application.

Sincerely,

A handwritten signature in blue ink, appearing to read "Steve Yeager", is written over a horizontal line.

Steve Yeager
