

Climate Pollution Reduction Grants Program: Implementation Grants General Competition

Funding Opportunity: EPA-R-OAR-CPRGI-23-07

Application Title:	<i>All-In</i> Home and Building Improvement Hub
Type of Application:	Coalition Application
Lead Applicant:	Clark County Department of Environment and Sustainability Marci Henson, (702) 455-3118, mhenson@clarkcountynv.gov
Coalition Members:	City of Boulder City City of Henderson City of Las Vegas City of Mesquite City of North Las Vegas Regional Transportation Commission of Southern Nevada Southern Nevada Water Authority
Funding Requested:	Tier A; \$499,999,236
Brief Description of GHG Measures:	The <i>All-In</i> Home and Building Improvement Hub will establish a one stop shop for improvements that increase energy and water efficiency, reduce utility bills, and enhance indoor air quality. It will provide technical assistance, financial resources, and contractors to do the work. The goal is to build a foundation for a sustainable program that eventually serves all homes and buildings in the region.
Sector(s):	Residential buildings
Expected Total Cumulative GHG Emission Reductions:	2030: 113,480 MTCO₂e (61,964 MTCO ₂ e from direct implementation, 50,502 MTCO ₂ e indirect, and 1,014 MTCO ₂ e from implementation of water efficiencies) 2050: 1,388,265 MTCO₂e (337,717 MTCO ₂ e from direct implementation and 1,050,549 MTCO ₂ e indirect)
Location(s):	Las Vegas-Paradise-Henderson MSA
Applicable PCAP Reference(s):	The <i>All-In</i> Home and Building Improvement Hub is included as a priority GHG reduction measure within the <i>Las Vegas-Henderson-Paradise MSA PCAP</i> , of which Clark County is the lead organization.
