Marci Henson, Director
Clark County Department of Environment and Sustainability
4701 W. Russell Road, Suite 200
Las Vegas, Nevada 89118

Dear Director Marci Henson,

It is my pleasure to write a letter of support for Clark County's application for the US EPA's Climate Pollution Reduction Grants (CPRG) Program's Implementation Grants General Competition. Clark County's efforts to seek funding to consolidate home and building improvement resources for residents and businesses through the All-In Building Improvement Hub represent a substantial opportunity to yield transformational change in Southern Nevada.

The historic funding provided through the Inflation Reduction Act stands as a groundbreaking legislative initiative, particularly for states like Nevada that urgently require substantial funding for climate action that also addresses chronic stressors like housing affordability, underemployment, and rising energy costs. The CPRG program presents a unique opportunity to empower communities throughout Nevada to make substantial strides toward a more sustainable and climate-resilient future, positioning Nevada as a leader in proactive climate action.

In conclusion, I fully support the efforts of Clark County as they seek external funding to support the development and delivery of the All-In Building Improvement Hub.

Sincerely,

A handwritten signature in black ink that reads "Julie Pazina". The script is fluid and cursive, with the first letters of each word being capitalized and larger than the rest of the letters.

Julie Pazina
Senator, District 12
