In Lake County, where the 1,100-acre remediated brownfield, lakefront preserve, and 277-acre solar site will be located, two census tracts are designated as Justice40 communities - and both are in the City of Painesville, right at the site of the proposed project. The Justice40 census tracts in the City of Painesville are home to a total of 8,717 residents and are described below:

**Table 3. CEJST census tracts served by Painesville Electric and that will be impacted by reduced electricity rates**

39085204200
39085204500

Census Tract 39085204200: This tract is 52% low income, and a majority of residents (60%) are people of color, with a large Hispanic population (36%). This census tract is in the 90th (or above) state and national percentile for three (3) EJ Indexes, including Ozone (95th state percentile and 92nd national percentile), RMP Facility Proximity (93rd state percentile and 92nd national percentile), and Hazardous Waste Proximity (92nd state percentile and 91st national percentile).

Census Tract 39085204500: This tract is 60% low income, and a majority of residents (58%) are people of color, with a large Hispanic population (36%). This census tract is in the 90th (or above) state or national percentile for five (5) EJ Indexes, including Ozone (96th state percentile and 93rd national percentile), Diesel Particulate Matter (92nd state percentile), RMP Facility Proximity (93rd state percentile and 92nd national percentile), Hazardous Waste Proximity (93rd state percentile and 92nd national percentile), and Underground Storage Tanks (92nd state percentile).

An additional seven census block groups in the adjacent communities that will be served by the brownfield reclamation and lakefront preserve project in Painesville, including Painesville Township, the Village of Fairport Harbor, and the City of Painesville, are designated as EPA IRA Disadvantaged Communities.

**Table 4. IRA disadvantaged census tracts surrounding the proposed Painesville Park**
