RE: Letter of Support for Climate Pollution Reduction Implementation Grant (CPRG) -
Decarbonize DRCOG Proposal

As the Beneficial Electrification League, representing Beneficial Electrification League of Colorado, a coalition of utilities, environmental groups, and municipal stakeholders in the region, we are writing to express our wholehearted support for the Climate Pollution Reduction Grant (CPRG) project proposal presented by the Denver Regional Council of Governments (DRCOG). The "Decarbonize DRCOG" initiative encompasses a transformative and holistic approach to regional building decarbonization, and we believe it aligns with our commitment to support the beneficial electrification of the economy by tackling the barriers to building decarbonization, offering tailored services for home and building owners, industry, and local governments.

The proposal is comprehensive and transformative. It not only targets equitable building electrification but also ensures a focus on Justice40 principles, prioritizing benefits for low-income and disadvantaged communities and will help bring our entire region along in advancing our climate justice and greenhouse gas reduction goals.

We look forward to contributing our expertise, tools, and resources to support the success of this groundbreaking initiative.

Should you have any inquiries regarding our support for this funding application, please feel free to contact Keith Dennis at kdennis@be-league.org

Sincerely,

/s/ Keith Dennis
