RE: Letter of Commitment for Climate Pollution Reduction Implementation Grant
(CPRG) - Decarbonize DRCOG

To Whom It May Concern:

Xcel Energy is pleased to support the CPRG Decarbonize DRCOG grant proposal. This effort will benefit customers through a transformational and holistic regional building decarbonization approach.

Xcel Energy is committed to delivering 100 percent clean, carbon-free electricity by 2050 and believes that the CPRG Decarbonize DRCOG initiative is a strategic, impactful, and replicable approach that both aligns with the Biden Administration's Justice 40 initiative and addresses the need for building decarbonization. If this project is awarded, Xcel Energy is committed to actively supporting the long-term success of this initiative through contributing our expertise, and applicable resources such as dedicated program staff participation on the program's advisory board, participation in working groups, and through marketing support of Xcel Energy's applicable rebate programs.

Again, Xcel Energy confirms its commitment in support of the transformative potential of this initiative and looks forward to working closely with DRCOG and other stakeholders to advance our collective decarbonization efforts.

Regards,
