RE: Letter of Support for Climate Pollution Reduction Implementation Grant (CPRG) -  
Decarbonize DRCOG Proposal

On behalf of Daikin Comfort Technologies North America, Inc ("Daikin"), please accept this letter of support for the Climate Pollution Reduction Grant (CPRG) project proposal presented by the Denver Regional Council of Governments (DRCOG). The "Decarbonize DRCOG" initiative encompasses a transformative and holistic approach to regional building decarbonization, and we believe it aligns with Daikin's goals and commitments to decarbonize building heating and cooling systems. The grant supports an increase in well-paying jobs, addressing the region's employment needs as well as the needs of the HVAC industry in Colorado.

The proposal is comprehensive and transformative. It not only targets equitable building electrification but also ensures a focus on Justice40 principles, prioritizing benefits for low-income and disadvantaged communities and will help bring our entire region along in advancing our climate justice and greenhouse gas reduction goals.

Based out of Waller, Texas, Daikin is a global leader and manufacturer of HVAC equipment for the residential and commercial markets, with specific emphasis in helping states, utilities and local governments achieve electrification goals. We support and participate in energy efficiency and electrification programs all across North America.

Should you have any inquiries regarding our support for this funding application, please feel free to contact Matthew Baker at [matthew.baker@daikincomfort.com](mailto:matthew.baker@daikincomfort.com).

Sincerely,

A handwritten signature in blue ink that reads "MATTHEW BAKER".
