RE: Letter of Commitment for Climate Pollution Reduction Implementation Grant (CPRG) - Decarbonize DRCOG

Dear DRCOG,

As longstanding advocates for clean energy and climate action, we are pleased to share our commitment and support for the **Decarbonize DRCOG** grant proposal. Boulder County is committed to the rapid transformation needed to meet the climate crisis, including an equitable transition to building electrification. We recognize the need for collaborative action to achieve our science-based climate goals, which is why uniting the entire metro-region of Denver under one strategic approach is powerful. Moreover, this proposal aligns with the Biden Administrations' Justice 40 initiative, addressing the critical need to center equity in our climate solutions.

If DRCOG is awarded the CPRG funding, Boulder County will tirelessly secure the necessary resources, advance bold policies and support efforts that will further accelerate this groundbreaking initiative. More specifically, Boulder County pledges to support this project in the following ways:

- We will continue to participate in the Executive Advisory Board, contributing to co-creation, collaboration, and informed decision-making.
- We will establish policies and ordinances in conjunction with the program that support building decarbonization efforts.
- We will share relevant data and information to facilitate informed decision-making and strategic planning.
- We will lead inclusive outreach with community stakeholders through public education and participation in working groups.
- We will support solutions that are in alignment with Justice40 principles, prioritizing equitable outcomes for frontline communities.
- We will collaborate with community organizations, advocacy groups, and other stakeholders to address systemic barriers and promote equitable access to program benefits and opportunities.

Claire Levy County Commissioner **Marta Loachamin** County Commissioner **Ashley Stolzmann** County Commissioner
