From: Heaven Campbell, Florida Program Director

Subject: Letter of Support– Climate Pollution Reduction Grant (CPRG) Implementation Grant

To Whom It May Concern,

I am writing this letter on behalf of Solar United Neighbors to express our strong support for the CPRG Implementation program for the 'Miami-Fort Lauderdale-Pompano Beach Metropolitan Statistical Area' (MSA).

The South Florida program will reduce greenhouse gas emissions, implement adaptation strategies, and build climate resilience across the Southeast Florida region through the Southeast Florida Regional Climate Change Compact partnership. The program will include financial incentives for solar photovoltaic panel installations for homeowners in Low Income and Disadvantaged Communities (LIDACs).

Solar United Neighbors is a nonprofit that educates homeowners about solar energy and provides consumer protection and support for those looking to go solar. Co-ops focus on education, consumer protection and support in going solar. For these co-ops, we hold several community sessions to provide unbiased education to homeowners.

We offer this letter of collaboration in support of applying for and the implementation of the CPRG Implementation program. If selected, SUN looks forward to supporting the South Florida program by offering thought leadership on program design and education to homeowners about the financial incentives.

Sincerely,

Heaven Campbell
