From: Lily Pardo, Board Chair, Habitat for Humanity of Broward

Subject: Letter of Support – Climate Pollution Reduction Grant (CPRG) Implementation Grant

To Whom It May Concern,

I am writing this letter on behalf of Habitat for Humanity of Broward to express our support for the CPRG Implementation program for the 'Miami-Fort Lauderdale-Pompano Beach Metropolitan Statistical Area' (MSA).

Our organization is aware of the program's objectives and is prepared to respond to the call for services to assist in the implementation of the energy efficiency portions of the program, should we be afforded the opportunity. The program aims to reduce greenhouse gas emissions, implement adaptation strategies, and build climate resilience across the Southeast Florida region through a partnership known as the Southeast Florida Regional Climate Change Compact.

Habitat for Humanity of Broward proudly builds sustainable, energy-efficient homes that are both environmentally friendly and cost-effective for homeowners to maintain. Our construction has a long history of incorporating sustainable building strategies and builds homes according to L.E.E.D. building standards.

We offer this letter of collaboration in support of applying for and the implementation of the CPRG Planning grant.

Sincerely,
