To Whom It May Concern,

Subject: Letter of Commitment for CPRG Application and the Development of RFO Facilities

Castlerock Green Energy is excited to express our steadfast commitment and support for the Renewable Fuel Oil (RFO) facilities project led by The Habematolel Pomo of Upper Lake. As an organization dedicated to the development of sustainable energy solutions, our partnership with The Habematolel Pomo of Upper Lake and Ensyn Corporation represents a significant step towards our shared vision of a cleaner, more sustainable energy future.

Our involvement in this project is comprehensive, encompassing several critical areas that are vital for the project's success:

- 1. Project Development and Management:** Castlerock Green Energy will leverage its extensive experience in project development to oversee the RFO facilities' construction and operation. We will manage project timelines, budgets, and compliance, ensuring that the project adheres to the highest standards of quality and environmental sustainability.
- 2. Technology Integration:** In collaboration with Ensyn Corporation, we will facilitate the integration of the proprietary RTP technology into the RFO production facilities. Our team will work closely with Ensyn to ensure seamless technology deployment, optimization, and operational efficiency.
- 3. Engineering and Construction Support:** Castlerock Green Energy will provide engineering support, including site assessment, engineering feasibility, and construction oversight. We are committed to working with nationally recognized contractors to execute the project efficiently and effectively.
- 4. Training and Workforce Development:** Understanding the importance of a skilled workforce, Castlerock Green Energy will participate in training programs for plant staff. We will support the establishment of apprenticeship and continuous education programs in collaboration with educational institutions and Ensyn Corporation, ensuring that the workforce is well-prepared for their roles in the renewable energy sector.
- 5. Community Engagement and Environmental Compliance:** We are committed to engaging with local communities and stakeholders throughout the project's development and operation. Castlerock Green Energy will ensure that all environmental permits and compliance requirements are met, supporting The Habematolel Pomo of Upper Lake's mission to protect natural resources and reduce GHG emissions.

Castlerock Green Energy is fully dedicated to the successful implementation of the RFO facilities project. We believe that this initiative will not only contribute to significant greenhouse gas emissions reduction but also promote economic growth and job creation in the communities we serve.

We look forward to working closely with The Habematolet Pomo of Upper Lake, Enslyn Corporation, and all project stakeholders to bring this visionary project to fruition.

Sincerely,

John Murphy  
Executive Director  
Castlerock Green Energy
