March 26, 2024

Greetings Selection Committee,

It is my pleasure to write a letter of support for the Climate Pollution Reduction Implementation Grant- City of Helena Composting Improvement Project.

As a retired City of Helena Fire Chief with over 25 years' experience, and the Secretary of Tri-County Firesafe Working Group (TCFSWG) I, along with several other members serve to engage property owners on how to co-exist with and survive wildfire. The primary mission of TCFSWG is to educate the community, to preserve natural and manmade resources. We use a collaborative effort by mobilizing both public and private sectors to make homes, businesses, properties, neighborhoods, communities, and the landscape more fire safe. In addition, we address issues such as wildfire prevention, hazard mitigation, structure and infrastructure protection, emergency preparedness and response and evacuation planning in the Tri-County area.

Along with serving on TCFSWG Board, I have also served as a Helena City Commissioner since 2019, and a committee member of the Integrated Solid Waste Master Plan. My extensive knowledge of Wildfire safety, and Solid Waste operations, paired with a deep desire to keep my community safe and clean, is the reason I support the City of Helena Composting Improvement Project. Funding from the Climate Pollution Reduction will benefit our community greatly, which is why I hope you will see us as a strong contender, in the selection process.

Regards,

Sean Logan, Helena City Commissioner
