Jennifer Messer  
Executive Director  
Central Indiana Regional Development Authority (CIRDA)  
1 Municipal Drive  
Fishers IN 46038

Dear Jennifer,

As a designer of commercial solar energy systems since 2013, Telamon Energy is a solar partner with a national footprint, headquartered in Hamilton County, Indiana. Our company division designs solar installations and is a full-service provider that assists with design, procurement, and installation via construction companies' contracts. Telamon has a track record working with Indiana Utility Companies as well as the Indiana Regulatory Commission, and with municipalities, businesses and schools across the state to maximize their ROI, reduce electricity costs, and diminish GHG emissions with customized PV arrays.

Therefore, Telamon fully supports CIRDA's application to the Environmental Protection Agency's Climate Pollution Reduction Implementation Grants Program, which, if funded, will enable the City of Indianapolis, Rolls Royce, and other entities to retrofit their buildings with PV arrays and move toward zero-emission power systems.

Telamon stands ready to advise CIRDA in the area of solar installs, and to partner with public sector, industry, and cultural organizations seeking EPA subawards to implement solar in Central Indiana/CIRDA communities.

Regards,

Bruce E. Breeden, Ed. D.  
Vice President, Senior Consultant
