RE: Support for the Kane County Coalition in applying for the Climate Pollution Reduction Grant

Dear Mrs. Bates,

On behalf of the City of Elgin, I am pleased to write this letter of support for the Kane County Government and the Department of Environmental and Water Resources application for the U.S. Environmental Protection Agency's Climate Pollution Reduction Grant application.

The CPRG is a nationwide effort that will support the reduction of greenhouse gas emissions, with particular interest in serving low to moderate income households and historically underserved communities.

We see great value in their application as it applies to a wide range of activities across a large scale area with special focus on energy and renewable resources. Their plan to incorporate large scale group buy and rebate programs will not only educate the community and bring lower costs to families, it will reduce greenhouse gas emissions over a large area.

The City of Elgin's mission is to be a transformative organization at the forefront of governmental service delivery. We believe that our organization's mission is aligned with the goals of this grant and we support the work of this coalition.

Sincerely,

City of Elgin, IL

David Kaptain
Mayor
