

Climate and Economic Justice Screening Tool (CEJST) Census tract IDs

EEX proposes prioritizing assistance to communities in Kansas defined as Low-Income and Disadvantaged as defined for EPA IRA Programs. These communities include any census tract that is included as disadvantaged in CEJST; any census block group that is at or above the 90th percentile for any of EJScreen's Supplemental Indexes when compared to the nation or relevant state; or any geographic area within tribal lands as included in EJScreen. Because the EJScreen data layer for communities as defined for EPA IRA Programs does not provide census tract ID or census block group data, EEX presents below the list of proposed CEJST-disadvantaged communities in Kansas. Data Source: <https://screeningtool.geoplatform.gov/en/downloads#3/33.47/-97.5> (CEJST; accessed March 26, 2024)

Census tract 2010 ID	County Name	State/Territory	Identified as disadvantaged
