King Salmon, Alaska 99613

Borough Manager Hill,

Please accept this letter of commitment from the Lake and Peninsula School District (LPSD) for the Lake and Peninsula Borough funding application to the Environmental Protection Agency Climate Pollution Reduction Implementation Grant Program General Competition titled “GHG Reductions for the Lake and Peninsula School District.”

LPSD operates ten active school facilities across the Lake and Peninsula Borough, providing K-12 education to 12 communities. One of the District's central offices is in King Salmon, approximately halfway between Port Alsworth, the northernmost school, and Perryville, the southernmost. Our school sites are in remote microgrids and have incredibly high energy costs. Energy costs are an incredible burden on our school district, and any opportunity to reduce these costs increases our capacity to provide high-quality education to our students. The vision of the Lake and Peninsula School District is to grow self-directed, life-long learners who are grounded in their culture and contribute to their communities.

The proposed energy efficiency projects will dramatically reduce energy costs, improve air quality, reduce carbon emissions, and improve operations for our facilities. Our School District has extensive experience implementing capital projects and complex maintenance programs. It is committed to overseeing and implementing the scope of work to implement the proposed emissions reduction measures over the next four years as a subawardee to the Lake and Peninsula Borough.

Sincerely,

A handwritten signature in black ink, appearing to read "Kasie Luke".

Kasie Luke  
Superintendent of Schools
