Lima Town Supervisor, Michael J. Falk  
7329 East Main St.  
Lima, NY 14485

Dear Supervisor Falk,

We were excited to learn of the possibility for the Town of Lima considering the completion of the sidewalk from Gale Rd on Rochester St. north to the County Line. As I am sure you are aware, this will pass right by Bristol ID and will allow many of our employees to walk to and from work and others to walk safely to the Lima Village.

You may be aware that we employ over 100 employees in our Lima facility and enjoy collaborating with the many businesses throughout this community. Many of these employees live in the Lima Village. By completing this sidewalk this could mean a significant cost reduction for those employees who currently must drive to and from our parking lot. We see this also being an opportunity for all our employees to get exercise throughout the day to improve their health and well-being and support the businesses throughout the Lima community.

Please count us in total support of this wonderful opportunity and keep us posted on how we can follow the progress of this project.

Best Regards,

***Karen R. Jenkins***
