EXPERIENCE

Massachusetts Clean Energy Center

63 Franklin Street, Boston, MA

Managing Director Offshore Wind

2018 – present

Lead efforts to advance the successful and responsible development of the offshore wind industry in the Commonwealth. Direct programs and initiatives for the Massachusetts Clean Energy Center (MassCEC) including planning and stakeholder engagement, sector development, and research and innovation to reduce risk, increase market confidence, and realize the climate, economic, and workforce benefits of offshore wind.

- Lead initiatives and investments in offshore wind ports assessment and utilization, development of workforce training and education programs, and supply chain growth and expansion.
- Direct technical and applied research projects and stakeholder engagement on marine wildlife, fisheries, met-ocean data, transmission studies and other initiatives.
- Oversee leasing and operations of the New Bedford Marine Commerce Terminal, the nation's first purpose-built facility specifically designed to support the construction, assembly, and deployment of offshore wind projects.
- Act as MassCEC's principal for the redevelopment of and operations at the Salem Offshore Wind Terminal, a public-private partnership with Crowley Wind Services and the City/Port of Salem.
- Serve as designated lead for Massachusetts on the U.S. Bureau of Ocean Energy Management Task Forces on Offshore Renewable Energy for offshore wind planning, siting, leasing and permitting.
- Support MassCEC strategic planning, organization, and management as member of Executive Team.
- Develop and manage multi-million dollar budgets for offshore wind program and New Bedford Marine Commerce Terminal; lead Board review and authorizations; oversee procurements, grant solicitations, and contracts.
- Build and lead a dedicated team of professionals; promote robust collaboration and effective delivery of results; oversee administration, staffing plans, hiring, and performance evaluation.
- Seek press opportunities, respond to media inquiries, conduct legislative and administration briefings, represent Commonwealth and MassCEC at conferences, international trade events, and other speaking engagements.

Massachusetts Office of Coastal Zone Management

251 Causeway Street, Boston, MA

Director

2011 - 2018

Assistant Director

2005 - 2011

Led, managed, and administered the Massachusetts Office of Coastal Zone Management (CZM), the lead agency for coastal and ocean policy, planning, and management for the Executive Office of Energy and Environmental Affairs.

- Directed strategic planning, policy development, technical approaches for CZM program areas including offshore wind and renewable energy, ocean planning, climate change adaptation and coastal resilience, habitat protection and restoration, ports and harbors, and GIS/data management.
- Managed regulatory reviews for offshore wind and other energy facilities, waterfront development, dredging, aquaculture and other coastal and ocean projects.
- Served on Bureau of Ocean Energy Management Task Forces on Offshore Renewable Energy focused on offshore wind planning, siting, leasing and permitting; led offshore wind stakeholder processes and public meetings.
- Participated in national and regional partnerships and initiatives, including: Coastal States Organization, Northeast Regional Ocean Planning Body, Northeast Regional Ocean Council, Gulf of Maine Council on Marine Environment.
- Managed and oversaw agency's budget and finances; identified and attained enhanced funding opportunities.
- Supervised agency operations and administration, led and managed team of ~35 professionals, including staffing plans, hiring, and performance evaluation.
