

Central Arkansas Green Network Model Project List

The four model projects below were analyzed as representative examples of Green Networks projects in the Central Arkansas region. They provided the basis for Central Arkansas' Carbon Removal and Active Transportation Projects GHG emissions reduction calculations, which were then scaled according to Central Arkansas' CPRG budget investment in pass-through grants for 1) land acquisition and conservation; 2) land restoration and tree/vegetation planting; and 3) bicycle-pedestrian infrastructure/trail construction.

	Site/Project Name	Eligible Entity/ Location	Conservation Acres	Restoration Acres	Trees Planted	Linear Ft of Trail	Reduction MTCO ₂ e 2025-2030
1	Cabot/Austin Greenway	City of Cabot, City of Austin	212	59	100	23,936	16,923
2	Jacksonville Greenway	City of Jacksonville	37	37	100	3,643	3,749
3	Fourche Creek Greenway	City of Little Rock	406	198	100	21,424	37,315
4	Rock Creek Greenway	City of Little Rock	171	83	100	14,459	17,681

CABOT / AUSTIN
CPRG REGIONAL
GREENWAY TRAIL
PROJECT

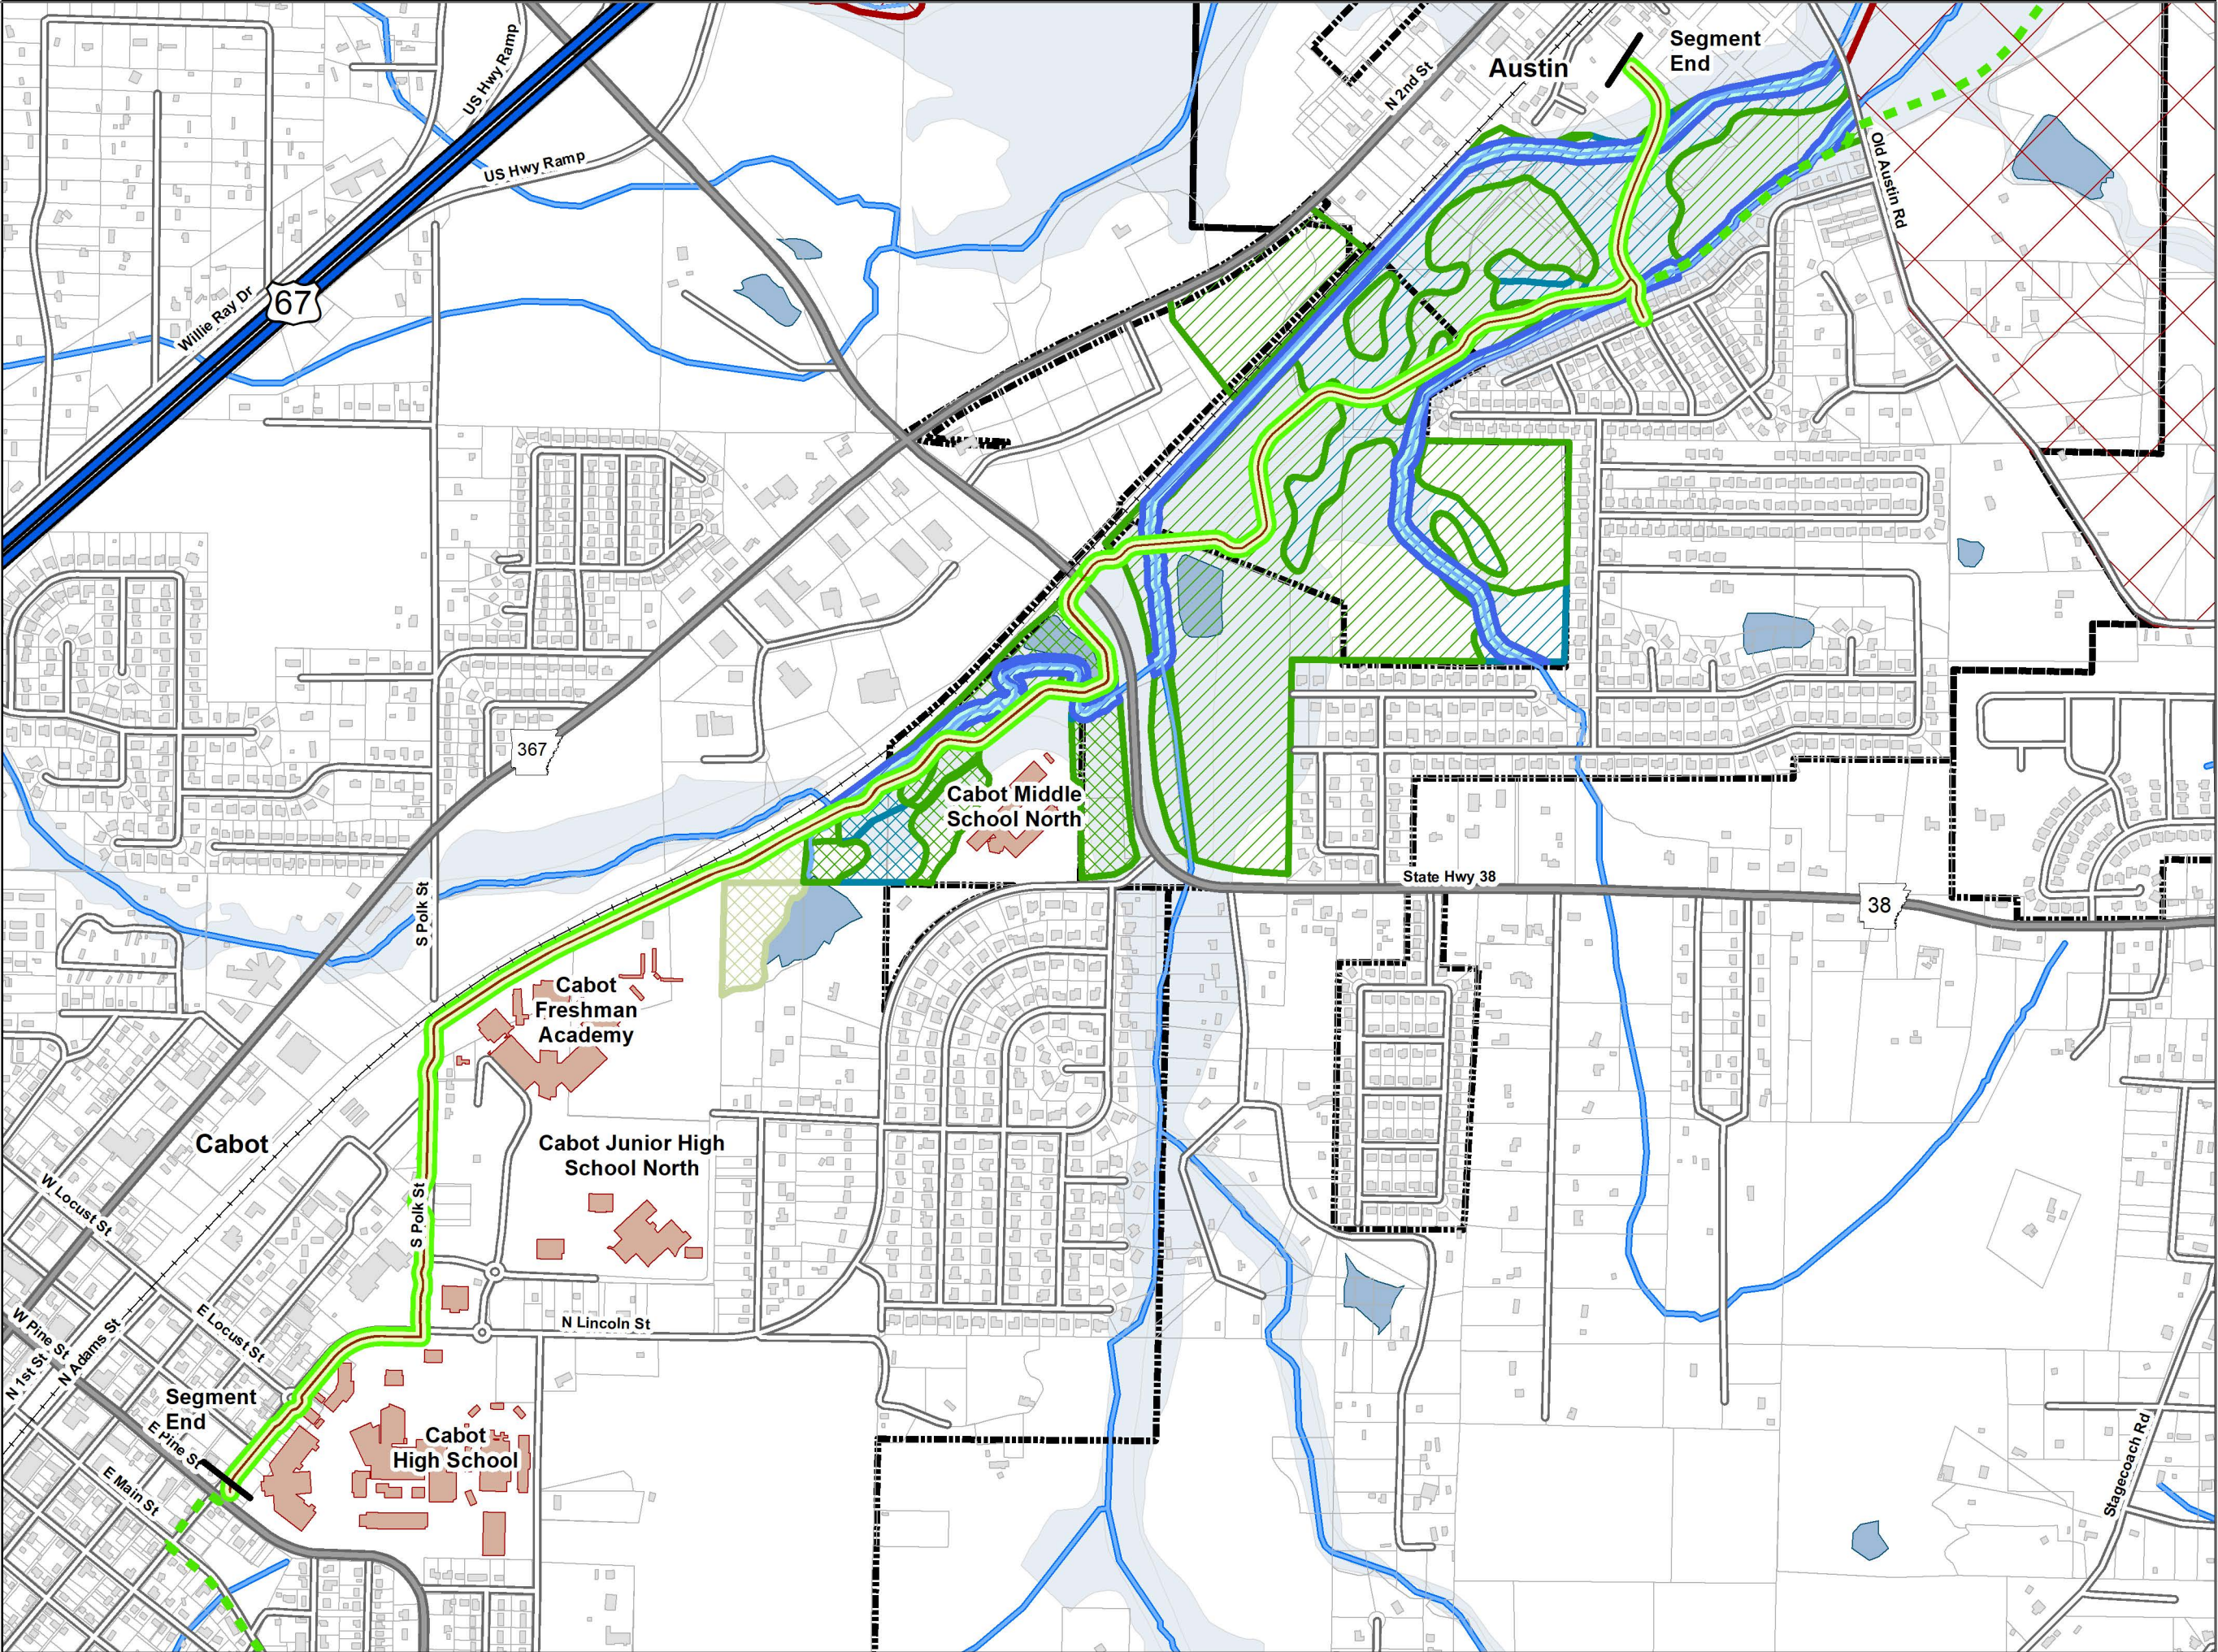

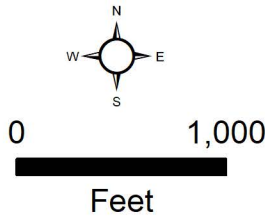

Segment Length	23,936'
Conservation Acres	223.1
% of trail in LIDAC	0%
