Dear Environmental Protection Agency,

Subject: Minneapolis led coalition of the Twin Cities Commercial Energy Efficiency Program - CPRG Proposal

I am writing to affirm that the City of Inver Grove Heights (City) intends to join the Minneapolis led coalition of local governments from the Twin Cities to implement the Twin Cities Commercial Energy Efficiency Program.

Providing commercial energy efficiency outreach is a priority of the City of Inver Grove Heights Energy Action Plan (EAP) and 2024 Environmental Advisory Commission (EAC) Work Plan. The Twin Cities Commercial Energy Efficiency Program will help the City accelerate implementation of EAP and EAC goals related to supporting local business energy efficiency projects. As part of the coalition, the City is committed to sharing the Twin Cities Commercial Energy Efficiency Program information and resources directly with local businesses to encourage participation and increase community energy efficiency.

Sincerely,

Kris Wilson
City Administrator
City of Inver Grove Heights
