---

February 27<sup>th</sup>, 2024

Dear Environmental Protection Agency,

I write to confirm that the City of Minneapolis is part of the coalition proposal on equitable residential decarbonization being submitted by the Minnesota Pollution Control Agency (MPCA) as the lead entity for the proposal.

As part of the coalition, we will deliver programming to help residents and/or organizations in our community complete planning and work to decarbonize homes through efficiency and electrification. Minneapolis has years of experience in delivering incentives on residential decarbonization, including simple steps like weatherization and more cutting-edge technologies like cold climate air source heat pumps. This opportunity allows us to scale our citywide efforts as well as lend our experience to the jurisdictions across the state in ways that work for them.

We plan to work through the development of a memorandum of agreement with MPCA that lays out responsibilities of each party and will sign the MOA agreed to by all parties. This MOA will be submitted to EPA by July 1, 2024.

Sincerely,

Mayor Jacob Frey
