2745 West Line Road
Mississippi State, MS 39762

Mr Check,

The Mississippi Water Resources Research Institute (MWRRI) was authorized by Mississippi's Governor Paul B. Johnson in 1964 and is one of 54 institutes in the United States that form a network of coordinated research programs to solve ecological problems of state, regional, or national significance. As such, we are excited to hear about the proposal you are submitting to the Environmental Protection Agency's Climate Pollution Reduction Grant. Moreover, our team of environmental scientists and engineers are willing to assist in executing this grant if funded.

Sincerely,

L. Jason Krutz
Director, Mississippi Water Resources Research Institute
Mississippi State University
