March 29, 2024

Dear Ms. Panturad,

I am writing on behalf of the County of Monterey Communications Bureau to confirm our support of and participation in Monterey County's Agriculture and Tourism Worker EMobility Network proposal to the EPA Climate Pollution Reduction Grant Program.

The mission of the Communications Bureau is to provide accurate, timely and transparent information to our stakeholders. We regularly partner with the Sustainability Program and look forward to further partnering with sub-awardee Ecology Action. Our Bureau has worked with Ecology action by helping to promote these important programs to the community as they are vital for our future.

Should the EPA CPRG grant be awarded, our Communications Bureau is committed to supporting roll out of the EMobility Network services in the following ways:

- Participate in planning meetings to ensure program design meets community needs from the lens our programs and population serve.
- Support implementation of the EMobility Network through promotion of services through traditional media, new media, engaging community leadership, informing community-based organizations, and using staff communication to promote to our workforce.

Thank you for considering our proposal, which will serve among the lowest income residents in the state, living in some of the highest cost of living and housing markets in the nation with limited public transportation options, working outdoors in extreme heat, smoke and drought conditions.

Sincerely,

Nicholas M. Pasculli
County Communications Director
Chief Public Information Officer
