Santa Fe, New Mexico 87505

From: HNO International Corporation

Re: Letter of Support – HJC Substitute for House Bill 41

Funding Opportunity Number: EPA-R-OAR-CPRGI-23-07

---

-----  
Greetings New Mexico Environment Department (NMED),

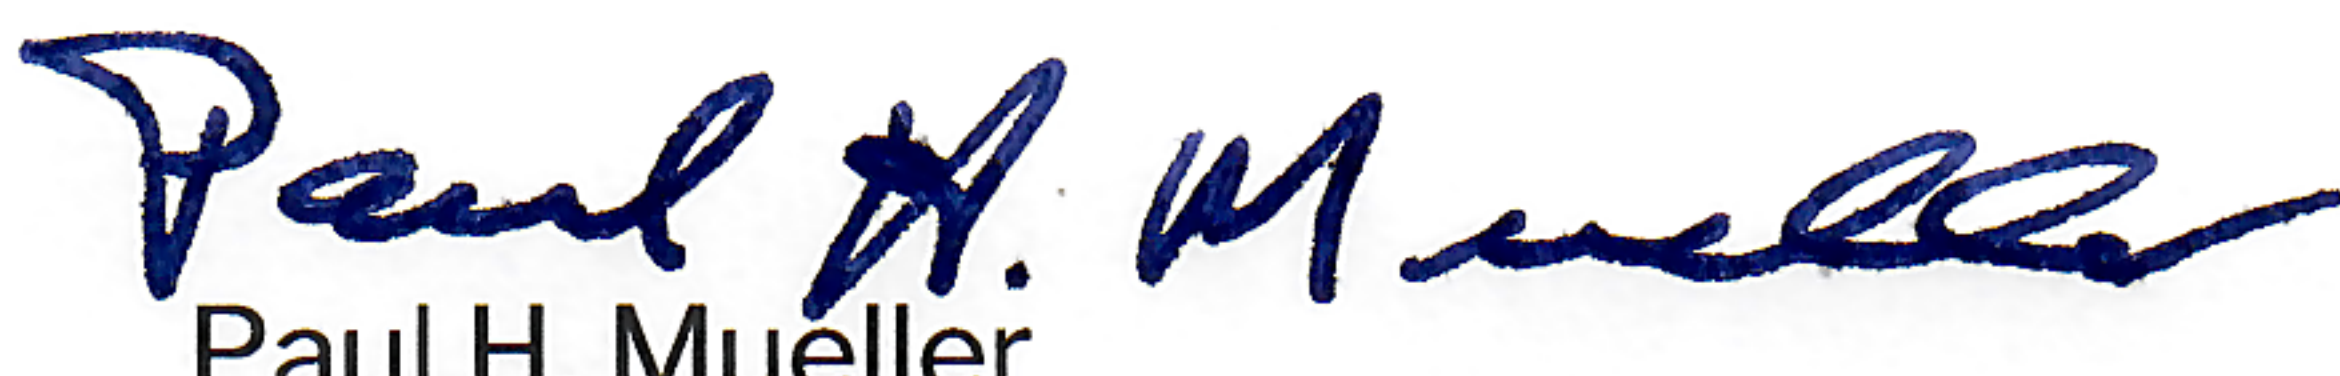

HNO International, Incorporated stands in support of the HJC Substitute for House Bill 41 because the measure will create the framework to adopt rules and to establish standards for Clean Transportation Fuel standards.

HNO International's involvement with the project includes assisting in the definition, implementation and deployment of Clean Hydrogen Technologies for the implementation of a clean hydrogen refueling infrastructure in New Mexico for medium and long haul logistics vehicles.

HNO International's commitment of support will allow NMED to implement the measure more rapidly and effectively through near term access to local production of rapidly deployable Green/Clean hydrogen supply in New Mexico.

In conclusion, HNO International urges NMED to apply for the Climate Pollution Reduction Grant opportunity to support this measure and requests the U.S. Environmental Protection Agency to award the funds to support it.

Sincerely,

A handwritten signature in blue ink, appearing to read "Paul H. Mueller", is written over the printed name.

Paul H. Mueller

CEO and President
