APPLICATION TITLE: Enabling Access to Energy Efficiency, Decarbonization, and Healthy Homes Coalition

BRIEF DESCRIPTION OF GHG MEASURES:

Community Energy Efficiency Development Program: expands an existing program to provide block grants to local governments in collaboration with community-based organizations to implement projects that target the adoption of energy efficiency that result in a decrease in energy consumption without reducing the amount or quality of energy services.

Pre-Weatherization for New Mexico LIDAC Program: scales up an existing program to pre-weatherize residential buildings by conducting structural repairs and home health remediation to enable previously deferred or ineligible low-income homes to access incentives for weatherization, energy efficiency, electrification, and renewables.

SECTORS:

☐ Industry

☒ Commercial and Residential Buildings

☐ Electricity Generation

☐ Agriculture/Natural and Working Lands

☐ Transportation

☐ Waste and Materials Management

☐ Other
