RE: Letter of Commitment for Grant Application, Philadelphia Housing Authority

Dear Ms. Schapira:

My name is Dinesh Indala and I serve as the Senior Executive Vice President for Operations at the Philadelphia Housing Authority. I am writing to extend my support to the Philadelphia Energy Authority as it pursues funding from the EPA's Climate Pollution Reduction Grants Program, which is designed to enable states, municipalities, tribes, and territories to 1) implement ambitious measures that will achieve significant cumulative GHG reductions by 2030 and beyond, 2) pursue measures that will achieve substantial community benefits in low-income and disadvantaged communities, 3) complement other funding sources to maximize GHG reductions and community benefits, and 4) pursue innovative policies and programs that are replicable and can be scaled up across multiple jurisdictions.

PHA is the fourth largest public housing authority in the United States and the largest landlord in Pennsylvania. As a municipal authority, PHA's mission is to open doors to affordable housing, economic opportunity and safe, sustainable communities to benefit Philadelphia residents with low incomes.

We intend to participate in or directly assist in the design and performance of a project that meets these four goals by renovating selected public housing sites to a high level of efficiency, exceeding the 2020 Enterprise Green Communities program Criteria 5.1b for substantially rehabilitated multifamily buildings; and, further, by fuel switching both in-unit utilities and site HVAC to electric sources as indicated in the 'Strengthening EGC Standards for Affordable Housing' guidance created by the Philadelphia Office of Sustainability.

We look forward to playing a role in helping to reduce greenhouse gas emissions across Southeastern Pennsylvania with the goal of protecting human health and the environment as part of this transformative opportunity.

Sincerely,

A handwritten signature in black ink, appearing to read "Dinesh Indala", with a long horizontal flourish extending to the right.

Dinesh Indala
