Dear Ms. Schapira:

My name is William White, and I serve as Township Manager of Radnor Township, PA. I am writing to extend my support to the Philadelphia Energy Authority as it pursues funding from the EPA's Climate Pollution Reduction Grants Program, which is designed to enable states, municipalities, tribes, and territories to 1) implement ambitious measures that will achieve significant cumulative GHG reductions by 2030 and beyond, 2) pursue measures that will achieve substantial community benefits in low-income and disadvantaged communities, 3) complement other funding sources to maximize GHG reductions and community benefits, and 4) pursue innovative policies and programs that are replicable and can be scaled up across multiple jurisdictions.

Radnor Township is a 1st Class Township located approximately 15 miles west of the City of Philadelphia. The Township is home to beautiful parks, a dynamic downtown, award-winning schools & universities, top-notch municipal services, global companies & dedicated conservation efforts. Radnor Township stakeholders have come to expect the very best in municipal services and as a result, the township provides a wide range of topnotch services from basic life safety issues to improved quality of life programming and amenities.

We intend to participate in or directly assist in the design and performance of a project that meets the four goals above by installing a rooftop solar array, upgrade HVAC systems, and install LED lighting at the Township's Municipal Building and Public Works Building and installing rooftop electrified heat pumps and LED lighting at the Radnor Activity Center.

We look forward to playing a role in helping to reduce greenhouse gas emissions across Southeastern Pennsylvania with the goal of protecting human health and the environment as part of this transformative opportunity.

Sincerely,

A handwritten signature in black ink, appearing to read 'William M. White', with a stylized, flowing script.

William M. White
