andyromanoff907@gmail.com

EDUCATION

CLARKSON UNIVERSITY, Potsdam, New York

M.S. Environmental Toxicology and Industrial Hygiene, 1988

Specialized program that blended civil and environmental engineering with biology and chemistry in a study of both community and corporate health hazards and their mitigation in the environment and the workplace.

NON-PROFIT EXPERIENCE

ALASKA HEAT SMART, Juneau, Alaska

June 2021 - present

Executive Director

- Provide guidance and oversight to a diversity of partner organizations across Alaska in the leading of multiple beneficial electrification programs.
- Develop and direct a \$4M DOE 'Renewing America's Nonprofits' building-retrofit program to improve energy efficiency and climate resilience of 25 nonprofit buildings across Alaska.
- Direct a \$2M HUD Healthy Home Program serving 90 lower income households
- Direct a \$500K DOE-funded Clean Heat Incentive Program providing financial incentives to lower to modest homeowners in Sitka and Juneau, Alaska
- Develop and direct a \$200K Sitka Tribe of Alaska Heat Pump Program to incentivize residential heat pump adoption for Tribal citizens
- Develop outreach and education programming to reach lower-income households and connect them with opportunities to benefit from local renewable energy
- Oversee the work and performance of four home energy assessors, a program coordinator, and a financial manager
- Coordinate vision, strategic planning, and fund raising with a nine-member board

RENEWABLE JUNEAU (Alaska Carbon Reduction Fund), Juneau, Alaska

2017 - present

Board Member (Project Director)

- Late 2017, assisted board members with organizing business support for the 2018-adopted Juneau Renewable Energy Strategy
- 2018 - developed a responsive web presence for Renewable Juneau with a blog to showcase a diversity of beneficial electrification issues
- June 2019 - Built and launched Renewable Juneau's **Alaska Carbon Reduction Fund (ACRF)**. Responsibilities include and are not limited to:
 - All marketing materials, web design, promotion, and outreach
 - Coordinate with HVAC companies, residential electricians, and program applicants
 - Coordinate with the Fund's community-based advisory committee members as well as the Juneau Community Foundation, ACRF's financial partner
 - Collaborate with Alaska Heat Smart's energy advisors to assess applicant home suitability and system requirements
 - Educate applicants and other interested community persons and businesses about

heat pump issues, options, home suitability, energy efficiency concerns, electrical concerns, and financial options and incentives

- Consult with statewide NGOs (Homer, Fairbanks, Anchorage, Sitka) on carbon reduction issues, concerns and possible program development options
- Negotiate and consult with local mines, international cruise lines, and dozens of local and statewide businesses regarding their individual pathways for carbon neutrality, carbon reduction, and carbon offset education

350JUNEAU, Juneau, Alaska
Board Member

2016 - 2018

- Brought an emphasis on local issues to the board and spearheaded the organization's efforts to support residential and municipal electric vehicle fleet adoption
- Created promotional and organizational print materials, such as action banners, event posters, outreach memos, and administrative materials

**PRIVATE SECTOR
EXPERIENCE**

ALASKA LITHO, INC., Juneau, Alaska
Manager, Prepress / Design Department / Lead Graphic Designer

1999 - 2021

- Directed and managed all aspects of the prepress and graphic design department
- Supervised multiple design staff, assisted clients with branding, marketing, design and layout nearly every type of print project imaginable.
- Operate at expert level with all Adobe and Apple design software. Literate with most Microsoft products, and fluent in both Mac and PC spaces.

ISLAND DESIGN, Juneau, Alaska
Owner / Graphic Designer

2005 - 2015

Offered graphic design services, and consulting and software education. Taught dozens of multi-day classes across southeast Alaska to state employees, Native corporations, local designers, and media outlets, with an emphasis on both proficiency and efficiency.
