---

Good Day,

Presidential Executive Order 12372 – Intergovernmental Review of Federal Programs requires applicants agencies to notify local governments of their request for federal funding. Texas does not have a single point-of-contact, therefore TCEQ is sending an e-mail to Councils of Government (COGs) with of their application submission for review.

Attached is the grant application for FY25 IRA – Climate Pollution Reduction Grants (CPRG) Implementation program. The TCEQ will be submitting the application to the Environmental Protection Agency (EPA) for consideration of award. This is a new program for TCEQ.

TCEQ is requesting funding in the amount of \$500,000,000 (Federal 100%, State 0%) with a requested start date of 10/01/2024 and end date of 09/30/2029.

The purpose of this grant is to implement four emission reduction programs from CPRG Priority Action Plan: Petrochemical Facility & Refinery Innovation, Oil & Gas New Technologies, Electric Power Innovation, and Rural Vehicle Replacement.

Please review the attached application within 30 days and provide any necessary comments. Comments received will be forwarded to the EPA.

Thank you,
