Re: Qawalangin Tribe of Unalaska Letter of Intent to Enter Into MOA re City of Unalaska Coalition Application to Fund Unalaska Renewable Energy Project

Dear City Manger:

The City of Unalaska is submitting an application under the Climate Pollution Reduction Grants (CPRG) Program: Implementation Grants General Competition (EPA-R-OAR-CPRGI-23-07) for funding of the Unalaska Renewable Energy Project (UREP). The Qawalangin Tribe of Unalaska, a federally recognized Indian tribe, strongly supports the City's application. The UREP would provide critical infrastructure and resources to reduce greenhouse gas emissions in the short and long term in the Unalaska community and surrounding region, improving the environment and the health, safety, and economic well-being of the Tribe and its membership. The Qawalangin Tribe of Unalaska is identified as and intends to be a Coalition Partner in the implementation of the UREP, with the City of Unalaska serving as project lead.

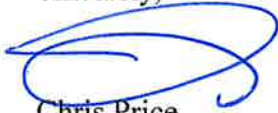

In its role as Coalition Partner, to support the community and the related goals of the project, the Qawalangin Tribe will work strategically and cooperatively with the City of Unalaska to develop the Renewable Energy and Innovation Center (the "Center") in Unalaska, Alaska. The Center would be focused on (but not limited to) quantifying GHG reductions and their impacts to the tribal community and community at large, innovative clean technology analysis, carbon capture, commission studies with universities and national labs, promote food security, weatherization and energy efficiency for home and community buildings, grant writing support for clean energy deployment, workforce development, and community engagement.

As required by the CPRG Notice of Funding Opportunity, the Qawalangin Tribe of Unalaska hereby submits this Letter of Intent to negotiate and, upon the reaching of mutually agreeable terms, enter into a Memorandum of Agreement (MOA) with the City of Unalaska to implement the grant and the UREP. Once agreement of terms is reached, the Coalition intends to submit the executed MOA to EPA no later than July 1, 2024. The MOA will describe the roles, responsibilities, and commitments each coalition member will be responsible for to ensure project success. The MOA will also include a proposed operating model for the coalition that describes how these roles, responsibilities, and commitments will be achieved by laying out the

coalition's structure, methods and expectations for communication among members, and decision-making and conflict resolution processes.

The undersigned represents that they are authorized to sign this Letter of Intent on behalf of the Qawalangin Tribe of Unalaska. Thank you for your consideration.

Sincerely,

A handwritten signature in blue ink, appearing to read "Chris Price", with a large, stylized loop at the end.
