Richmond, VA 23219

RE: Letter of Intent to sign a Memorandum of Agreement with the Virginia Department of Environmental Quality for the EPA Climate Pollution Reduction Grant Program (CPRG) "Methane Capture and Beneficial Reuse" coalition application (NOFO EPA-R-OAR-CPRGI-23-07).

Dear Director Dowd,

The Virginia Department of Energy submits this letter of support for the Virginia Department of Environmental Quality's coalition application entitled "Methane Capture and Beneficial Reuse" in response to EPA's Notice of Funding Opportunity (NOFO) No. EPA-R-OAR-CPRGI-23-07.

As a coalition member, Virginia Department of Energy commits to supporting the successful implementation of the Methane Capture and Beneficial Reuse project in alignment with the technical description detailed in this grant application. As required by the NOFO, as a member of the coalition we intend to enter into a Memorandum of Agreement with DEQ by July 1, 2024.

We are aware that strong partnerships and networks are needed to successfully leverage funding through EPA's CPRG Program to advance environmental solutions in the Commonwealth of Virginia. We are also committed to prioritizing all disadvantaged and underserved communities within the Commonwealth of Virginia.

Virginia Department of Energy understands that we will be both a coalition member and subrecipient to VA DEQ if funding for the proposed activities in this application is awarded. Under EPA's CPRG Program, subawards must be consistent with the definition of that term in 2 CFR 200.1 and comply with EPA's Subaward Policy. As a subrecipient Virginia Department of Energy be accountable for proper use of EPA funding and we commit to fulfill the required subaward reporting requirements.

We are pleased to join DEQ in this coalition application, and we look forward to working with you on this valuable project.

Sincerely,

Glenn Davis – Director  
Virginia Department of Energy
