Letter of Support: Windsor Water Reclamation Facility Biosolids Handling Project
Funding Opportunity Number: EPA-R-OAR-CPRGI-23-07

On behalf of the Sonoma County Board of Supervisors, I am writing to show support for the Town of Windsor's (Windsor) grant application to the Environmental Protection Agency, Climate Pollution Reduction Grant program for the "Windsor Water Reclamation Facility Biosolids Handling Project."

This coordinated grant application will directly support the following entities: the Town of Windsor, City of Healdsburg, City of Cloverdale, City of Santa Rosa, Sonoma Water, and Lytton Rancheria of California.

One of Sonoma County's strategic plan pillars is Climate Action and Resiliency, this project, although led by a town municipality, aims focus at a biosolids treatment project that will serve as a model for Sonoma County and our region. This grant funding will allow the construction of a biosolids treatment plant and promotes localized biosolids management. The implementation of this project would resonate far beyond the environmental confines of Sonoma County, setting a precedent for sustainable practices and collaborative efforts in environmental stewardship.

We encourage your consideration of funding this project.

Sincerely,

David Rabbitt, Chair
Sonoma County Board of Supervisors
