Veronica Siwy, Deputy Director of Water and Environmental Management
Town of Windsor, CA
9291 Old Redwood Highway
Windsor, CA 95492

Funding Opportunity Number: EPA-R-OAR-CPRGI-23-07 - Windsor Water Reclamation
Facility Biosolids Handling Project

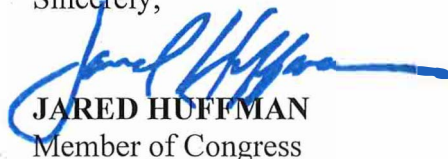

Dear Veronica,

I am writing to support the Town of Windsor's (Windsor) grant application to the EPA (Environmental Protection Agency) Climate Pollution Reduction Grant program for the Windsor Water Reclamation Facility Biosolids Handling Project. This coordinated grant application will directly support the following entities: the Town of Windsor, the City of Healdsburg, the City of Cloverdale, the City of Santa Rosa, Sonoma Water, and the Lytton Rancheria of California.

I understand the grant funding will enable the construction of a local biosolids treatment plant to respond to long-term climate resiliency and the adaptive capacity of Sonoma County by aligning multiple communities through a single need - localized biosolids management. A coordinated regional project like the one proposed by Windsor will serve as a model for local community benefits and can be replicated and scaled to other regions.

This Project would resonate far beyond the environmental confines of Sonoma County, setting a precedent for sustainable practices and collaborative efforts in environmental stewardship. Thank you for your full and fair consideration of the Windsor Water Reclamation Facility Biosolids Handling Project. Please contact my district director Jenny Callaway at 415-258-9657 or jenny.callaway@mail.house.gov should you need further information.

Sincerely,

JARED HUFFMAN
Member of Congress
