101 E Wilson St
Madison, WI 53703
Subject: Letter of Support

Dear Ms. Redmond:

I Keviea Guiden - WI Climate Table Community Commitments Campaign Project Coordinator supports the U.S. Environmental Protection Agency's Climate Pollution Reduction Grants Program: Implementation Grants General application (EPA-R-OAR-CORGI-23-07) submitted by State of Wisconsin Department of Administration through the Wisconsin Office of Sustainability and Clean Energy (OSCE). I am pleased to endorse the OSCE's efforts, as described in this application, to reduce greenhouse gas (GHG) emissions through implementing measures in the Wisconsin Emissions Reduction Roadmap.

Given Wisconsin's proven success in implementing equitable climate policies, I have full confidence in the OSCE's ability to develop and achieve the objectives laid out in the application and believe they will lead to important emissions reduction while mobilizing collective power to address historic injustice, create new jobs, and spur transformative climate action. The State of Wisconsin, through the OSCE, has a commendable track record of effectively utilizing state grants while actively engaging with low-income and disadvantaged communities.

I will continue a close work relationship with the OSCE through the duration of this grant. Our mission and vision is appropriately aligned. I work directly in Justice 40 Communities so I see the disparities. I'm working on creating green jobs, lowering greenhouse gas emissions, electrifying and weatherizing homes just to name a few. OSCE has an astounding background with a phenomenal background of getting things done in an efficient and effective way. The Climate Pollution Reduction Grant will help WI transition and move towards a healthy clean economy that all Wisconsinites can benefit from. This grant will help sustain the work that I'm currently doing to combat climate change. It will also help with employment opportunities through training and other educational opportunities with liveable wages in underserved communities. I'm excited to partner with the State of Wisconsin to advance the goals of the U.S. Environmental Protection Agency through this pivotal program.

Sincerely,

Keviea Guiden
WI Climate Table Community Commitments Campaign Project Coordinator
