Re: Proposed Changes to Loveland Products, Inc. (LPI) Labels for Carbaryl: EPA Reg. Nos. 34704-289; 34704-447, and 34704-1021

Dear Carolyn Smith:

Loveland Product, Inc. (LPI) holds U.S. Environmental Protection Agency (EPA) registrations for certain carbaryl end-use products in the United States. This communication provides a commitment from LPI to voluntarily amend the terms of all its relevant LPI carbaryl-containing end-use product registrations to allow for the species-specific measures referenced in the U.S. Fish and Wildlife Service email from Irvin Huang dated March 25, 2024. This will allow revision of the Description of the Action being considered in the ongoing endangered species consultations with the FWS.

LPI is committed to making these EPA-proposed label modifications with the understanding that additional end-user mitigation options may be added as they become available. We look forward to continued discussions with the EPA, FWS, and USDA in completing and implementing this Biological Opinion.

If you have any questions or require additional information, please contact myself or Marcia Trostle at:

Alexis Bromley – (p) (662)255-1835 or (email) Alexis.Bromley@nutrien.com

Marcia Trostle – (p) 806-216-1830 or (email) Marcia.Trostle@nutrien.com

Sincere Regards,
