This page summarizes the files contained in the packet for publication.

- 1) 35. 1 2 Dichloropropane . HEM Input and Output Files . Public Release . July 2026.pdf (**this document**)
- 2) 01. 1,2-Dichloropropane HEM Input and Outputs TRI: Folder containing files of input parameters used for modeling with the Human Exposure Model (HEM) and model output files for releases from facilities reporting to the Toxics Release Inventory (TRI). The output files include output files directly from HEM for individual facilities and aggregate results across all facilities. The outputs also include post-processing summary data that were used in the analysis.
- 3) 02. 1,2-Dichloropropane HEM Input and Outputs NEI: Folder containing files of input parameters used for modeling with the Human Exposure Model (HEM) and model output files for releases from facilities reporting to the National Emissions Inventory (NEI). The output files include output files directly from HEM for individual facilities and aggregate results across all facilities. The outputs also include post-processing summary data that were used in the analysis.
